Update Aug 2017 / CFG files

I made some minor code changes to lesson21, lesson22, and lesson23, to fix potential bugs. Specifically added LDX#0 in the NMI code and on rand8(). Also, touched up the face on lesson23.

And, I made some more changes...to the same .zip files. I changed all the .cfg files.

cc65 CFG Files for the most common mappers

<http://dl.dropboxusercontent.com/s/0m4p4xh2ae51axm/CFG.zip>
(<http://dl.dropboxusercontent.com/s/0m4p4xh2ae51axm/CFG.zip>).

Includes-

AXROM, BNROM, CXROM, MMC1, MMC2, MMC3, MMC5, NROM, and UNROM.
